

Shared Decision Making Programs

Shared Decision Making videos and booklets help patients weigh the risks and benefits of important healthcare treatments. Your patients can view the programs at home at their convenience and continue the discussion with you at a follow-up visit. This service is sponsored by the John D. Stoeckle Center for Primary Care Innovation in collaboration with the Foundation for Informed Medical Decision Making. If you have any questions regarding this program or are interested in accessing these videos, please email MGHSDM@partners.org to contact the Shared Decision Making Project team (Christine Greipp, Lauren Leavitt, Karen Sepucha, and Leigh Simmons).

Note that Shared Decision Making Video ordering through the LMR and Oncall is limited to providers and practices affiliated with MGH.
