

Tuesday Take Away

What is the main “take away” message?

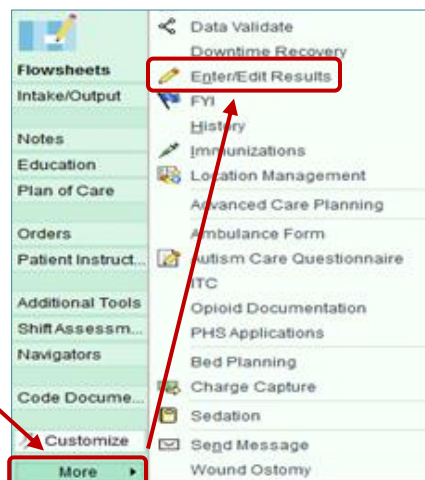

Document results of fecal occult blood testing in the Logbook and in Epic

Hemoccult is a “non-interfaced” test meaning that the result is not electronically transmitted to Epic and must be manually entered

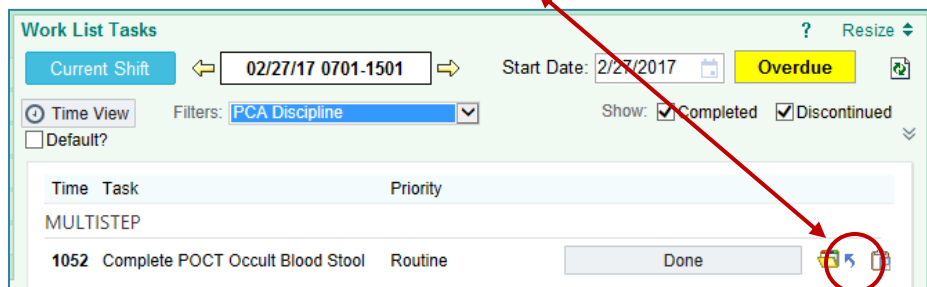

Documentation of results in Epic is always done through the **ENTER / EDIT** functionality.

The **ENTER / EDIT** functionality can be accessed two ways:

Option #1 On the Activities Bar under “More”

Option # 2 Click the blue arrow in the Worklist

Enter/Edit results

Specimen		Resulting Lab		Results Message		
Type:		Lab name:	MASSACHUSETTS GE	Recipient	Modifier	
Collected by:	STULER, MICHEL	Technician:				
Collection date:	2/27/2017	Providers				
Collection time:	09:26 AM	Billing:				
		Resulting:		<input checked="" type="checkbox"/> Send results message	<input type="checkbox"/> Cc list only	
Components		Sensitivities		Result		
Component	Value	Flags	Low	High	Ref Range
