Tips for Timely Documentation of Pain Assessments and Reassessments

Flowsheet Column Times

- When opening Flowsheet tab, it will default the column time to the nearest interval that it is set at (the closest 2hr for example) ---- <u>does not default</u> to current time.
- Click "Now" or "Add Column" to change column time to current time:

| 📙 Eile 📮 Add Rows 🔺 LDA Avatar 👻 📲 Ad | d <u>C</u> ol _{II} ‡ _I Insert Col | Data Validate | Hide Device Data 👻 📊 Lá |

Documenting Pain Re-Assessment Tasks in Rover

1. When you log into Rover you land on the multipatient Brain

2. Tap on patient to open patient's Brain. Find the Pain re-assessment task and click to "doc"

3. **Scroll down** to Pain rows and document (*rover will timestamp the documentation for the time the task was due!*)

| Height and Weight | * |
