Patient Care Services

March 30, 2020

In appreciation for your selfless work and dedication during these extraordinary times

Nurses needed!

Starting Monday, March 30th, the Patient Care Services Management Team will reach out to ambulatory practices to identify nurses who can be re-deployed to ICUs, general care units, or the Emergency Department (ED). These nurses will receive refresher training. If your ambulatory practice has nurses with ICU, general care, or ED experience, please contact Antigone Grasso at: acgrasso@partners.org.

Bonnie Michelman
executive director
Police, Security & Outside
Services

"In the past few weeks, I have seen professionalism of the highest order, care and compassion that is unmatched, and world-class medical innovation that will, without a doubt, put an end to this crisis.

"Police, Security and Outside Services has always worked closely with Patient Care Services, and this challenge has only strengthened that synergy.

"Together, we are managing this foe, and together we will beat it. Be safe, and thank-you for what you do every day."

—Bonnie Michelman, executive director, Police, Security & Outside Services

Lunchtime take-out food deliveries

To help reduce traffic in the Gray and White lobbies, Monday through Friday, please have all take-out lunch orders sent to the Wang Lobby for pick-up.

THANK You Doctors, Nurses, etc

Cambridge fourth-grader, Grace Davis, shares her interpretation of healthcare providers fighting the coronavirus.

Symptom screening takes effect today

This morning, Mass General went live with the Partners-wide, self-monitoring system for COVID-19. This was a major change, and we appreciate your readiness to show your COVID-19 Pass.

Some staff still unaware

It's important that all staff working in clinical-care locations complete this daily screening prior to starting their shifts. To access the form on your phone:

- Install the COVID-19 Day Pass app (if you have MobileIron on your phone, you can access the app from the Partners App Catalog)
- Scan the QR code
- Bookmark the link: http://covidpass.partners.org
