Patient
Care Services

March 23, 2020

In appreciation for your selfless work and dedication during these extraordinary times

Debbie Burke, RN
senior vice president for Nursing & Patient Care Services and chief nurse

Colleagues,

Thank-you for everything you're doing to take care of our patients and *one another*.

As we practiced social or physical distancing, I wasn't able to make rounds. But now that we've implemented a mask-wearing policy, I hope to see many of you this week.

I'm also here every day working on your behalf to make sure you have what you need to practice safely.

I am so inspired by all of you. Thank-you.

Debbie

MGH Outfitters, General Store, and Flower Shop

MGH Outfitters, General Store, and Flower Shop is now offering a 10% discount to all MGH employees,

with an additional 10% off for preferred-customer cardholders.

How to put on, use, and take off a mask

- 1. BEFORE PUTTING ON MASK:**
Clean hands with alcohol-based hand rub or soap and water.

- 2. WHEN PUTTING ON MASK:**
Cover mouth and nose with mask and adjust to limit gaps between your face and the mask.

- 3. WHILE USING MASK:**
Avoid touching the mask; if you do, clean your hands with alcohol-based hand rub or soap and water.

- 4. TO REMOVE MASK:**
Clean hands with alcohol-based hand rub or soap and water. Then, remove it from behind. Do not touch the front of mask. Again, clean hands with alcohol-based hand rub or soap and water.

Lori Pugsley, RN, nursing director of the pediatric units, created a 'Serenity Corner' for staff complete with white noise and relaxing music, lavender-scented infusers, stress balls, plants, hand lotions, and magazines.
